DETAILED ACTION

Allowable Subject Matter

- 1.1 The following is an examiner's statement of reasons for allowance:
The instant application is deemed to be directed towards a non-obvious improvement over the invention patented in U.S. Patent No. 6479604 to Kim et al.
- 1.2 Claims 13 and 23 are allowed because the prior art, taken alone or in combination, fails to disclose or render obvious a photochromic diarylethene compound for use in optical waveguide structures such that the desired optical path can be written using light in a direct writing technique.
- 1.3 Claims 14-22 and 24-30 are dependent either directly or indirectly on Claims 13 and 23 and are therefore allowable.
- 1.4 comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
